

Why High Desert Haven?

High Desert Haven Assisted Living Facility is a residential care facility for the elderly who have physical problems associated with recent surgery, recent hospitalization or inability to live alone.

We believe that no matter who you are, where you are in life, or what your circumstances may be, you deserve to live a life filled with purpose, hope and meaning.

Participating in our activity program is the best way for residents to socialize with other people of the same age and interests.

The cost of staying at High Desert Haven is only about half of what it would cost in a nursing home.

What is Memory Care?

We typically associate old age with the fragility of the physical body: the wrinkling of skin, arthritis in the joints and failing eyesight. Even the mind shows its age with bouts of forgetfulness. But what happens when the mind ages in a way that disrupts a person's personality or memories? These are the heartbreaking effects of Alzheimer's and Dementia.

We are specifically designed to deliver the highest quality of care to residents in the beginning and intermediate stages of Alzheimer's & Dementia. We recognize each resident's individuality and dignity while maintaining their well-being in a secure, home-like setting.

High Desert Haven is licensed by the department of social services as a residential care facility for the elderly and is required to comply with all the rules and regulations of the agency.

The Goal Of High Desert Haven Is To Facilitate Continued Independent Living In A Home-like Setting.

Our mission is to promote independence and increase the quality of life for our residents.

Seniors at home do not always have the opportunity to socialize with others and help is not always available.

At High Desert Haven, we provide that opportunity to socialize and live with dignity.

CEO Abraham Mathew
